INTRODUCING TUMBLEWEED’S TINY HOUSE RV BUYING GUIDE

Congratulations! If you’re looking at this guide, it means you’re taking your first step towards having the Tiny House RV of your dreams! This catalog is designed to outline all of the options we offer. We build it how you want it. At Tumbleweed, we are committed to building (tiny house RV’s) outfitted to each customer’s personal lifestyle. Flip through these pages to view detailed models, floor plans and specifications on towing, plumbing, appliances and much more. As always, if you have any questions please feel free to email us at: support@tumbleweedhouses.com.

WHAT DO ALL THESE BOXES MEAN?

We’ve organized this guide to be user-friendly and to offer you an at a glance list of included amenities. If you see a green check box (✓) this is to inform you that this item is included in all our models. If you see a gray box ( ) this is a standard option, which will be chosen if no selection is made. The empty box ( ) is where you make a decision or choose to upgrade. In some cases this decision will override the standard option. If cost is associated, it will be listed.

WHAT ABOUT THOSE COLORED LINES?

Tumbleweed offers four models and with that comes some unique options. Some options are universal and you will see all four color lines under the specific options while others are dependent on style, floor plan, or model. This key can be found throughout the book:

- Elm®
- Cypress®
- Farallon™
- Roanoke™

Light is available in the Elm® and Cypress® Only
Modern Light is available in the Farallon™ and Roanoke™ Only
Front steps are available in all Tumbleweed® models.
The year was 1999 when our first “tiny home” was mounted to a trailer. The little home was named Tumbleweed because it had roots and was mobile all at the same time. And in that moment, the seeds for a revolution were planted.

Our Tiny House RVs are carefully crafted and made from the same high quality materials that you’d find in regular home with quality construction. We’ve perfected our design for 15 years, and we care about each and every one of our Tiny House RVs and the people residing in them.

Our RVs are certified to meet ANSI 119.2 and Federal Motor Vehicle Safety Standards, which means they can be parked at an RV park or campground. Many Tumbleweed owners use their Tiny House RVs as additional spaces and place them in their backyards or properties.

Despite their charming look, in the end a Tumbleweed is a Recreational Vehicle. The wheels are permanently attached and the Tumbleweed is easily towed on the roads. As a vehicle, it is designed to provide temporary accommodation for recreation, camping or seasonal use.

Yes. There are 8 different classes of RVs and Tumbleweeds fall into the “Travel Trailer” class which is one of the easiest to finance. We work with a variety of lenders to find the best loan for you. If you decide to apply for a loan, we recommend you contact us first.

Tiny House RVs can be delivered right to your front door, anywhere in the continental United States (shipping charges apply).
TUMBLEWEED QUALITY MADE
We put our whole heart into every inch of our Tiny Home RVs. Our professional carpenters use only the highest quality materials and construct every detail to fulfill your specific needs, ensuring your RV fits comfortably within your lifestyle.

### TUMBLEWEED MODERN MODELS

**THE ROANOKE™ MODEL**

The Roanoke™ is one of Tumbleweed’s newest model, designed for the Low-Wider trailer and featuring a shed style roof. Inside, the open floor plan combines kitchen and living under 10 foot ceilings giving the interior a spacious feel.

**FARALLON™ MODEL**

The Farallon™ synthesizes modern aesthetics and traditional farmhouse form with a rich palette of materials. It introduces some new materials, style, and appliances while keeping the high level of quality craftsmanship for which Tumbleweed builders are known.

**EXTERIOR — ROOF**

**STANDING SEAM METAL ROOF (INCLUDED)**
Dream big under your tiny herculean roof! This striking standing seam metal roof boasts a 30 year material warranty and is fireproof, lightweight and available in four eye-popping colors. Tiny House RV dormers expand the traditional gable roof and/or stargaze from the comforts of your RV by installing a skylight(s).

**DOUBLE-SIDED SHED DORMERS (INCLUDED IN ELM™ AND CYPRESS™ MODELS)**
Enjoy a spacious, breezy snooze with dormers and two additional windows to your loft! As a bonus, your extra windows will increase air circulation and provide you with a breathtaking morning view.

**NON-OPERABLE SKYLIGHT** ($800 EACH)
Operable Skylight ($1,200 EACH)
Sleep under the stars! 21 x 26 for non-operable and 30 x 30 for operable. Skylights will expand your ceiling into the sky.

**SKYLIGHT LOCATIONS**
Place an “X” in all the locations you would like to have a skylight installed. The middle section is for 26’ models ONLY. Roanoke™ only has one row available.
EXTERIOR SIDING

Our choice siding is clapboard cedar because of its gorgeous finish and exceptional stamina, the perfect combination for a “tiny home” designed to travel. Cedar is light weight, resistant to bugs and fares well in all climates. For extra protection and to increase longevity, we finish our siding with a clear sealer. For those who prefer a painted finish, we use a “LP Lap Siding”, an incredibly resilient engineered wood.

ELM® AND CYPRESS®

The chosen standing seam roof goes on top of your model. The wood siding wraps around all four of the sides.

Our covered porches are not only charming, but they also offer a comfortable weather barrier for your entryway. Enjoy a coffee while delicate snowflakes dance before your eyes or dig for your keys without getting soaked. The 1x6 porch boards, turned post, 2x4 railings and 2x2 spindles are made from cedar to match the rest of the RV.

**FULL PORCH (STANDARD)**
A picturesque full porch serves as a classic frame to a romantic entry. Sealed cedar wood posts, superlative carpentry, sharp proportionality and an elegant railing create a presence of grandeur.

**CORNER PORCH (STANDARD)**
The Cypress® offers a variety porch options to fit each owner’s personal preference. Choose from: right or left corner porch, decorative railing positions or porch post only.

INTERIOR

When you step inside a Tumbleweed, we want you to immediately feel at ease. Like a carefully assembled piece of art, we work hard to make sure each of our craftsman-style Tiny House RV are warm and inviting, functional and spacious, while intentionally drawing the occupant’s eye to unexpected and delightful details.

- **PINE BOARDS AND TRIM (STANDARD)**
  We use knotty pine T&G 5/16” boards to adorn the interior of our Tiny House RVs. This panelling is not only gorgeous and lightweight, but it will also elongate your space with faint parallel lines that seem to fade into the distance.

- **NATURAL WOOD FINISH AND TRIM ($2,000)**
  These plywood boards add a clean look to your interior and we match the trim and other wood features instead of the more traditional pine. A great option for a more modern aesthetic to your Tiny House RV.

- **HINGE DOOR (INCLUDED)**
  This darling interior closet door boasts fine detail work and matches the interior panelling.

- **SLIDING DOOR ($600)**
  This door, which slides flush against your interior wall, is the ultimate space saver.

- **POCKET DOOR ($300)**
  An additional option is the sliding pocket door, which will seamlessly hide within an interior wall.
INTERIOR FINISHING

Each and every Tumbleweed is unique, reflecting the owner’s personal taste. We believe customizing your model will deepen your connection with the space. You have the option to keep your interior finish natural, seal it for extra protection, or choose a color stain that accentuates your style. So go be you!

UNTREATED INTERIOR (STANDARD)
Keep the wood interior natural and bare, without adding sealant or stain.

SEALED INTERIOR ($2,700)
Seal your interior with a polyurethane varnish for easier surface cleaning and to protect from damage.

STAINED INTERIOR ($4,500)
We stain our Tiny House RV because traveling can cause paint to crack and peel. Choose from natural stains to keep with the woodland feel or choose white, maple, cherry or mahogany for a pop of color.
FLOORING

Your flooring can act as a grounding device for your Tiny House RV’s interior design. Pun intended, but it’s also true! Choose from four flooring options, all of which are: attractive, durable, comfortable underfoot and environmentally-friendly.

 VINYL DORAL WALNUT (STANDARD)
Dark, rich and robust. These COREtec™ vinyl walnut floors give a beautiful landing place for your footsteps as you walk through your Tiny House RV.

 VINYL AUGUSTINE OAK (NO COST)
Waterproof vinyl floors with a warm gray aesthetic add a complex blend of traditional and modern. The floors are also strong and can take everyday wear and tear.

 NATURAL BAMBOO (NO COST)
Add a hint of the tropics! This light colored bamboo will expand your space and is an extremely durable renewable resource.

 SPICE BAMBOO (NO COST)
A smoky, eye-catching alternative to Natural bamboo. Both bamboo options are assembled as interlocking boards.
BEAUTIFUL LIGHT FIXTURES
INTERIOR — LIGHTING

LIGHTING
Dazzle and illuminate your space with high-quality fixtures. At Tumbleweed, we believe that details matter, especially in a tiny space that will only require a few light sources. We’ve hand-picked premium sleek fixtures that will bathe your Tiny House RV in a comfortable soft glow.

☐ **SCONCES (INCLUDED)**
These unique Portfolio 6½” x 1’ light satin nickel pocket hardwired wall sconces give a warm glow to your model and light up each room.

Disc lights are found throughout the Farallon™ and the Roanoke™ models. The simple circular shapes go beautifully with the modern feel of both Tiny House RVs.

☐ **CHANDELIER (STANDARD)**
The contemporary Elysburg 3-Light satin nickel chandelier will cast a blanket of light over your great room and flawlessly match the sconces.

☐ **CEILING FAN ($150)**
Increase air circulation with the Monte Carlo Colony II 28” ceiling fan and light, which replaces the chandelier and fits perfectly within your charming roof line.

☐ **TRACK LIGHTING ($200)**
The flexibility of track lighting makes it ideal for your space. Illuminate high traffic areas with four sliding lights. Available in black or white.

☐ **LED LIGHTING PACKAGE ($250)**
Replace all light fixture bulbs with LEDs which have an estimated 20,000 hour lifetime.
SPACIOUS KITCHEN PANTRY
INTERIOR — STORAGE

STORAGE
Where will you put all your stuff? Storage is an essential component in any model, and our Tiny House RVs include a significant amount for space intended for your belongings. We also offer additional pieces to help you get organized, custom-made by the talented build crew.

 STORAGE LOFT (INCLUDED)
This multi-functional space can function as an additional bedroom, cozy reading nook or storage for your cumbersome possessions.

 STORAGE CLOSET (INCLUDED)
A lovely wood wardrobe, including a high shelf and built-in rod for hanging clothes.

 Get in contact with your Tiny House Specialist to see what closet options work for you.

 RAILING (NO CHARGE)
A lightweight railing for both lofts if available.

3’ TALL AND 10” DEEP BOOK CASE ($350)
6’ TALL AND 10” DEEP BOOK CASE ($450)
Display your treasures! These bookcases can fit next to your front door or along the side of your great room. Width is based on chosen location.
CONVENIENT OUTLETS AND SWITCHES
EXTRAS
Form and Function. In a large home you tend to forgive imperfections, but in a Tiny House RVs, the details really matter. Design your Tiny House RV to function as a companion to your lifestyle and consider a few small comforts that might improve your daily routine.

☐ LIGHT SWITCHES AND OUTLETS (INCLUDED)
Almond colored outlets and switches are sprinkled throughout your model, so you’ll never be caught searching for a power source.

Our Tiny House RVs can be towed by a standard 3/4 or 1 ton truck depending on the size of your RV, and do not require any permits to tow. Trucks can easily be rented or purchased depending on your transportation needs. Our Tiny House RV models are Certified RVs and have a street legal width of 8’6” and height of 13’4”. Remember that your Tiny House RV should be titled, licensed and insured to tow legally as an RV. To prepare for towing, above are specifications about Tiny House RV weights and minimum tow vehicle requirements.

Tumbleweed Tiny House RVs weights vary by size. Dry weight refers to the structure and trailer combined weight. GVWR or gross vehicle weight rating refers to maximum allowable weight of the combined Tiny House RV, trailer and your personal belongings. Tongue weight refers to weight carried by the hitch rather than the wheels of the trailer. Insufficient tongue weight is the primary reason it’s difficult for 1/2 ton trucks to tow Tumbleweeds. The compatible ball size is 2-5/16” for all Tumbleweed Tiny House RV trailers.
